

EXTRA CURRICULAR ACTIVITIES

Various sports and cultural activities are organized throughout the year which is necessary for the all round development of students. In house as well as out house competitions are organized so that the students develop the feeling of competitiveness. Sports and games facilities like Cricket, Volleyball, Football, Table Tennis, Badminton, Chess, and Carrom etc are available in the College.

ACADEMIC ACTIVITIES

At KISTech we provide academic excellence, Holistic Education, Innovative approach and global relevance. Our distinctive teaching methodology imparts education to modern learning techniques which are characterized by brain storming session, seminars, discussion, symposia, case studies, paper presentation, career fest, and workshops.

From the Very First year you students would go through mandatory RGPV course curriculum based on the Grading System. KISTech will provide you some beneficial skills that would groom your personality and enhance your communication skills, attitude, body language, presentability and interpersonal skills.

STUDENT'S SUPPORT FACILITY

Innovation Cell : The College has an active Innovative-Cell (I-Cell) which guides the students an excellent platform to put forward their innovative ideas. This cell conducts various training programmes to transform the staff and students' ideas into a new product/process. It guides the innovators to protect their ideas through patents

Parent Teacher Student Association: A parent-teacher-student management association looks into all the activities of the college for the betterment, facilities and standards of students. Parents are periodically informed of the academic as well as other status of their ward. As and when required they will be requested to meet the staff for personal discussion and possible improvement.

Dress Code: With the view to achieve discipline and uniformity among students, dress code with carbon blue pants with self lining shirt for boys and same colour combination suits for girls are insisted.

Transportation: College buses would be available, from all corners of Bhopal city. For the safety of the students on highway, the parents are advised to send them by the institution bus.

Health Care: Medical facilities will be provided to students by regular checkup by expert doctors who would be available all around the clock to take care during emergencies.

Canteen: The college canteen is maintained by the college management. The canteen adheres to the highest degree of quality, hygiene and provides the students with tasty food at the affordable rates.

Hostel: Hostel facility for boys and girls separately is available on tie up basis
